MERN Stack Web Developer

Tangail, Dhaka

+880 1314509720

[khanshimul196@gmail.com](mailto:khanshimul196@gmail.com)

[Linkedin](#) | [GitHub](#)

## Skills

---

- **Front-End Technologies:** HTML, CSS, Bootstrap, Tailwind, Material/UI, JavaScript, ES6, React Js
- **Back-End Technologies:** MongoDB, Express Js, Node Js, RestAPI
- **Tools:** Git, Google Chrome, VS Code, Netlify, Heroku, Figma, Photoshop

## Projects

---

### 1. Car Sale Web Application | [Live-Site](#) | [Client-Side-Code](#) | [Server-Side-Code](#)

#### Overview:

- On my orders page, the logged-in user will see only his/her orders and orders status. If the user wants, he/she will be able to cancel any order
- Users will be able to give reviews and the reviews will be displayed on the home page
- Admin ([admin@gmail.com](mailto:admin@gmail.com) | 123456) could be able to make another user an admin

**Technology:** HTML, CSS, Bootstrap, React js, Firebase, MongoDB

### 2. Travel Web Application | [Live-Site](#) | [Client-Side-Code](#) | [Server-Side-Code](#)

#### Overview:

- The details of the product that the user has clicked will be displayed on the booking page
- The admin will be able to delete anyone's order on the Manage Booking page
- Also will be able to add a brand new service. After adding that service, this service will appear on the home page

**Technology:** HTML, CSS, Bootstrap, React js, Firebase, MongoDB, Express js, Node js

### 3. Medical Solve Web Application | [Live-Site](#) | [Live-Site-Code](#)

#### Overview:

- Users will be able to sign in and signup using email-password and google account.
- If the user is not logged in, the details page redirects to the login page
- After login, the user will be redirected to the page he/she wanted to go to

**Technology:** HTML, CSS, Bootstrap, React js, Firebase, React-Router
